

MINISTRY HEALTH CARE

Sponsored by Sisters of the Sorrowful Mother

To Whom It May Concern,

Ministry Health Care was fortunate to have utilized Barb Schrage as an educator for us on Project Management. Barb worked diligently to incorporate our documentation and philosophy into the sessions so that the education sessions helped the participants learn not only about the science of Project Management but also how it worked in our organization. This made the education of even greater value to us.

Barb's knowledge of Project Management was evident in her development of materials and presentations. Additionally Barb's presentations were interactive, lively and engaging for participants. Post workshops evaluations consistently exhibited high scores on both the content and delivery of the material.

I would highly recommend Barb if you are looking for a great subject matter expert that can present and engage participants. She works hard to be sure that participants can apply the knowledge received in the sessions.

If you have any questions I would be happy to discuss her skills with you.

Respectfully,

Roberta Swift
Vice President, Mission and Culture
